These fittings are used in homes, commercial complexes, offices, etc. Also, these Brass Bathroom Fittings are available in various specifications as per the need of the customers at industry leading price.

BRASS ELECTRICAL PARTS

With an aid of our state-of-the-art infrastructure, we are involved in manufacturing and supplying a qualitative range of Brass Electrical Parts.

We offer these electrical parts in various sizes and specifications to fulfill the diverse requirements of our valuable clients. These products are made in compliance with set industry standards using high grade brass. Prior to dispatch for delivery, these Brass Electrical Parts are duly checked by our quality controllers on the criteria of dimensional accuracy and resistance to corrosion.

BRASS CABLE GLANDS

We are offering wide range of very high quality A1 A2 Type Cable Glands to our customers. A2 type cable glands are used with variety of unarmored or rubber sheathed cables. We do take care of the A2 type cable gland in our production unit of their fine delivery of endurance.

we are engaged in providing our clients Brass Electrical Cable Gland. These products are manufactured at our end in compliance with the industry norms and standards. The offered products find their application in industries like rubber, plastic, armored and UN-armored cable. Our professionals ensure that only defect-free range is delivered at the clients' end within the promised time.

We are leading manufacturer and supplier of high quality BW Type Brass Cable Glands to our customers. These products are used to attach and secure ends of different cables used in various equipments and instruments. These products are used with SWA, plastic , and rubber to provide positive armor locking and increased mechanical strength.

We offer high quality range of CW Cable Gland. It is manufactured using optimum quality material in the manufacturing that ensures high durability, tensile strength and resistivity to adverse conditions.

Rabadiya Industries is one of the Reputed and well established Manufacturer and supplier of E1FW Cable glands, We are providing our superior quality E1FW Cable glands to very reputed organization in India and abroad.

BRASS CABLE GLANDS

E1W glands are weatherproof glands and can be used in corrosive conditions when protected with shroud. Positive armour locking, effective earth continuity, increased mechanical strength.

We offer high quality range of IP68 Cable Glands. It is manufactured using optimum quality material in the manufacturing that ensures high durability, tensile strength and resistivity to adverse conditions.

We offer a wide range of marine cable glands. We offer marine cable glands, which is used for various marine applications. Our Marine & JIS Type Cable Glands are made from the superior quality Brass material and designed & Manufactured by our expert Team

Our organization is a trusted name of the industry, which is engaged in manufacturing, supplying and exporting an unparalleled array of PG Type Cable Glands. Further, these cable glands are designed with advanced technology and are known for optimum performance, durable finish standards, temperature resistance and corrosion resistance.

Driven with the perfection, we are manufacturing, supplying and exporting a comprehensive range of high quality Brass Wiping Glands. We have manufactured these brass wiping glands in complete adherence with the international quality norms. Along with this, to suit clients exact requirements, we customize our offered range of brass wiping glands as per the specifications detailed by them.
